Relevant Experience

MERN Stack Web Developer · **Sunya Creatives** 2025-Present

- Built and maintained responsive web interfaces using technologies like React.js, JavaScript, Tailwind CSS, and component-based UI development methodology.
- Developed using the MERN stack, whereby the interface was connected to Node.js, Express, MongoDB, REST API, authentication, and role-based applications.
- Worked on an agency site and CMS-based solution with employee dashboards, task management, attendance, activity logs, analytics, and dynamic web content.
- Auth flows implemented with JWT access and refresh tokens, cookies, protected routes, and Axios token refresh service.
- Collaborated with Git and GitHub during the development process, solving problems related to deployment, CORS, API, dependencies, and database.

Web Developer / Student Projects Academic & personal

- Built full-stack and frontend projects involving React, Node.js, Express, MongoDB, PHP, MySQL, and external APIs.
- Developed a weather application using an external weather API using PHP for backend with MySQL-backed data handling.
- Built portfolio and business-oriented web experiences with responsive layouts, animations, reusable components, and modern UI patterns.

BSc Computer Science Student · **Fishtail Mountain College** Current

- Studying BSc (Hons) Computer Science in a 3-year program partnered with the University of Wolverhampton.
- Developing practical experience across web development, programming, databases, software engineering, and application development.

Selected Projects

Sunya Agency CMS & Employee Management System

- MERN-based platform that caters to managing agency operations, which includes attendance management, employee dashboard, task allocation, project management, analytic, and CMS.

Personal Portfolio Website

- Portfolio for the responsive developer designed using React and Tailwind CSS including separate About, Projects, Experience, and Contact pages.

Skills

Programming Languages

JavaScript, Python, Java, PHP, HTML, CSS

Frameworks & Libraries

React, Next.js, Node.js, Express, Tailwind CSS, Gsap, React-Router-Dom

Databases & APIs

MongoDB, MySQL, REST APIs, JWT Authentication

Tools & Platforms

Git, GitHub, VS Code, Vite, Cloudinary, Postman, MongoDB Atlas

Education

Fishtail Mountain College

BSc (Hons) Computer Science
Partnered with the University of Wolverhampton · 3-year program

Focus

Full-stack web development, responsive UI, API development, authentication, database-driven applications, and modern React experiences.

Additional

MERN Stack · Responsive Design · UI/UX · REST APIs · Git/GitHub · Deployment & Debugging
